LQ-590IIN

WORLD LEADER IMPACT DOT MATRIX PRINTER SINCE 1996

Fast, networked 24-pin, 80-column dot matrix printer that offers outstanding reliability and an extremely low TCO.

The LQ-590IIN is a high-volume dot matrix printer designed for fast and reliable printing. Upgrade your existing dot matrix printers to our latest model, which is now Energy Star compliant, and delivers built-in network capability with an incredibly low TCO.

Fast print speed
The LQ-590IIN offers an improved USD (ultra speed draft) speed of 550 characters per second at 10 characters per inch, making a real difference to high-volume print runs such as stock reports and large batches of invoices or freight documents.

Increased reliability
Epson's dot matrix technology is already mature and very reliable. Building on this, the new printer improves the mean time between failure by 25% to 25,000 power-on hours, ideal for challenging conditions or where regular maintenance is not practical.

Same consumables
This printer uses the same ribbons as existing models, so you can upgrade your hardware and continue to use your current ribbon supplies.

Network capability
This is a network model which supports both serial and Ethernet connections for enhanced connectivity.
