

# LQ-2090IIN

Fast, networked 24-pin, 136-column dot matrix printer that offers outstanding reliability and an extremely low TCO.

The LQ-2090IIN is a high-volume dot matrix printer designed for fast and reliable printing. Upgrade your existing dot matrix printers to our latest model, which is now Energy Star compliant, and delivers built-in network capability with an incredibly low TCO.

#### Fast print speed

The LQ-2090IIN offers an improved USD (ultra speed draft) speed of 550 characters per second at 10 characters per inch, making a real difference to high-volume print runs such as stock reports and large batches of invoices or freight documents.

#### Increased reliability

Epson's dot matrix technology is already mature and very reliable. Building on this, the new printer improves the mean time between failure by 25% to 25,000 power-on hours, ideal for challenging conditions or where regular maintenance is not practical.

#### Same consumables

This printer uses the same ribbons as existing models, so you can upgrade your hardware and continue to use your current ribbon supplies.

#### Network capability

This is a network model which supports both serial and Ethernet connections for enhanced connectivity.
