INK TANK SYSTEM PRINTERS

L6160/6170/6190

Experience high printing speeds and borderless printing for up to A4 size with Epson L6160/6170/6190 ink tank printers. Armed with PrecisionCore™ printheads, print speeds are improved for increased efficiency. The new tank design is integrated into the printer to allow the printer to have the smallest footprint* amongst all brands of ink tank printers that use bottled ink refills. Together with a new set of low-cost ink bottles which guarantees spill-free ink refilling and the paper-saving auto-duplex function, enjoy one of the lowest printing cost solutions. Maximise connectivity with a suite of Epson Connect features which enables printing on the go over a network.

*The total Colour CPP including black ink is 32 paise.

Each printer comes bundled with a starter kit of 1 x 127 mL bottle of black pigment ink and 3 x 70 mL bottles

ENGINEERED FOR BUSINESS

Superior Savings with Auto-Duplex

Save up to 50% on paper costs with auto-duplex function, and enjoy even greater savings with high page yields and affordable inks.

Speed, Quality and Reliability

Epson PrecisionCore printhead offers higher print speed, quality and reliability. Pigment black ink produces water and smudge-resistant printouts.

Seamless Connectivity

Share your printer over Wi-Fi, Wi-Fi Direct, Ethernet and print on the go via a suite of Epson Connect features.

*Results obtained by comparing published specifications of minimum footprint of all brands of link tank printers using bottled ink refills against the Epson L6160/6170/6190. Results valid as of July 2017. 'Total Colour Cost Per Print - 20 Paise (CMP) + 12 Paise (K) = 32 Paise. Cost Per Print (CPP) is calculated based on quoted Page 'Vield for Black (7,500 page) and Composetic Cyann'/Alagenta/Pollow - 6,000 Pages) ink bottles, and MRP of Epson genuine ink bottles. Quoted yields are based on the replacement ink bottles purchased. Part of the ink from the included bottles is used for printer startup so yields could be lower than those of replacement ink bottles purchased. Part of the ink from the included bottles is used for printer startup so yields could be lower than those of replacement ink bottles purchased. Part of the ink from the included bottles is used for printer startup so yields could be lower than those of replacement ink bottles purches. Actual yields vary due to reasons including images printengating and humidally. Yields may be lower when printing infrequently or predominantly with one ink colour. Ink is used for both printing and printhead maintenance. All inks are used for both black and colour printing. "Source: DC Asia Pacific Hardcopy Peripherals Tracker 2017 03. Volume and Value Market share of A4 Inkjet Printers and MFPs." Standard warranty period is one year or 50,000 pages whichever comes first.
